

Project Report Two Columns

Replace by the Title of your Project

Name of first Student, Name of second Student, Name of third Student

Abstract—The Abstract should not exceed 200 words and should not be an introductory text on the subject of the report, but a summary of the whole report, describing what the author(s) did, how it was done, the main results and their importance. It should be discursive and not just a list of topics covered in the report.

1 INTRODUCTION

THIS demo file is intended to serve as a “starter file” for writing the Project Reports, produced under L^AT_EX using IEEEtrans class.

2 SECOND SECTION

Write here Some text. Note that some special characters need an escape sequence. For example, to write a % sign you need to escape the character with a backslash (\%).

2.1 Now a Subsection

Write here Some text. This is a bibliographic citation [1].

2.2 Abbreviations and Acronyms

This template is ready to define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. For the students of Instituto Superior Técnico (IST) it becomes very easy to make references to the School just using the

respective acronym. The first time it was used, in previous paragraph, the name of IST was presented in extended form, but now only the acronym was typed.

2.3 Figures

Placing figures is also very easy, as for example the following Figure 1:

Figure 1. SAN Architecture

With this construct the reference in text to Figure 1 is straightforward [1], [2].

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Cras sed sapien quam. Sed dapibus est id enim facilisis, at posuere turpis adipiscing. Quisque sit amet dui dui. 2.4 Equations

Writing equations or math expressions, for example $\alpha + \beta = \chi$, is also very easy.

Another method to write math expressions or equations is the following construct, normally numbered automatically:

$$\delta + \epsilon = \theta \quad (1)$$

With this construct the reference in text to Equation 1 is straightforward.
